WILLIAM RANDALL

Rural Mail Carrier

He was driving between 12.00 and 1.00 Friday morning September 15 from New Brunswick to his home in Bound Brook and at about 12.10 saw a Dodge Sedan parked on Easton Avenue facing New Brunswick between the Parker Home and De Russeys Lane. He saw no people and did not get the car number. His wife was with him. He heard no screams, shots, or noises of any kind. He slowed down his own Ford Touring car and looked at the Dodge because its lights were out, its curtains were drawn and its door on the side towards the woods (presumably the Phillips Farm) was open. Says he could see into the Dodge through the windshield and no one was in it.

Note: His own lights on the windshield should prevent his seeing into the car. Mrs. Hall's Dodge did not have the kind of curtains that pull up and down but the kind that are draped back, the way window curtains are held back.
